

ALL SEASONS

CATALOGUE

2024

Spring | Summer | Autumn | Winter

DEAR CUSTOMERS,

It gives me great satisfaction to introduce you to our new TH Clothes catalogue.

In this regard, I would firstly like to express my deep gratitude to all our customers, who have been loyal over the years. Your unshakeable support is the driving force behind our ongoing success.

We have been witnessing the steady growth of our brand, which would not have been possible without the loyalty you place in us. For the year 2024, we have bold plans that will mainly involve investing in new products that will most certainly stand out for their high quality and added value.

The premium positioning of the TH Clothes brand in the market is something we have always championed and will continue to consolidate. Our commitment to quality, design and innovation are the basis of this market positioning, and we are therefore committed to moving beyond the standards that have defined us. In this light, one of our main focal points will be the expansion of the sports line. We acknowledge the value of these products and we aim to bring together functionality and style to enhance the sporting activity of all those who buy TH Clothes.

Let me also take this opportunity to show my great excitement about the development of our new website, which aims to offer you an online experience that is more intuitive, more immersive and, above all, that showcases our commitment to ongoing modernisation and innovation.

Whilst we continue with our mission to supply products of outstanding quality, we are also committed to environmental sustainability. That's why we've been embarking on a path towards more responsible practices that lessen our impact on the environment and that will contribute to a greener tomorrow.

At TH Clothes, we understood the relevance of standing out from competitors.

In effect, we decided to transform the shopping experience into something unique and distinctive, which would enhance the awareness of our brand. This is how the "Branded Spaces" came about, which will translate a new way of presenting the TH Clothes brand at the point of sale, bringing our products to life and functioning as true brand ambassadors.

On behalf of the entire TH Clothes team I would like to extend my sincere appreciation for being part of this family, as your support and trust are crucial to our continued growth and development. We look forward to another year in which we will share a fruitful partnership and shared success.

Best regards,

Mauro Silva
CEO

THIS IS OUR CULTURE

Today our vision is a reality. The Better Cotton Initiative (BCI), or simply Better Cotton, is the largest cotton sustainability program in the world. In just over a decade, BCI has managed to convince stakeholders that span the sector to be its partners, namely, farmers, ginnerers, spinners, suppliers, manufacturers, brand owners, retailers, adding now more than 2,300 members in the Better Cotton network.

TH Clothes has always taken on a huge commitment with the quality of its products. Proof of this is the obtaining of the Standard 100 by Oeko-Tex certificate, which aims to guarantee the use of regulated substances free from health hazards. Obtaining this certificate is a worldwide synonym that ensures responsible textile manufacturing, and consequently, represents a guarantee for industry, commerce and consumers.

The GRS seal is an in-depth certification that not only guarantees the recycled content of the product (minimum: 20%), but also ensures a sustainable production, the absence of harmful chemicals and ethical conditions of work. This international product standard was created by Certifications Control Union in 2008 and is currently owned by Textile Exchange.

The Recycled Claim Standard (RCS) is a voluntary international standard that establishes requirements for third-party certification of recycled content and chain of custody. The goal is to increase the use of recycled materials. The RCS reference does not address the use of chemicals or other social or environmental aspects of production beyond the integrity of the recycled material. RCS is based on chain requirements Content Claim Standard (CCS) custody.

In order to ensure working conditions for people in the ready-made garments industry and to avoid incidents in the countries where we purchase our products, TH Clothes considered essential to become a member of the International Health and Safety Agreement in Textile and Clothing Industry (International Agreement).

This agreement is legally binding between clothing brands and unions, with the aim of making textile factories safer. TH Clothes thus takes extreme care with the working conditions of all those who contribute to the production of its products, so it provides all the guidelines so that they are safe throughout the production process. In this way, TH Clothes, in partnership with Bangladesh suppliers, ensures that all measures are being taken to build a better future for the clothing business.

Our ECO FRIENDLY seal represents the commitment to sustainability. Increasingly aware of the importance of adopting environmentally friendly practices, we strive to reduce our environmental footprint by using recycled materials and promoting and supporting nature preservation initiatives. This seal is not just a symbol but a continuous commitment to a greener and healthier future for present and future generations.

We are currently experiencing a worldwide appeal for a more active and intense awareness of packaging, so, following its plastic reduction process, the brand has increasingly invested in the use of biodegradable materials, such as cardboard. This time, a program was created to reuse all shipping packaging, in order to minimize waste and ensure responsible use.

LESS PLASTIC! THIS IS NOT JUST AN ACTION, IT'S A POSITION!

TH Clothes takes environmental responsibility very seriously, and It's precisely for this reason, and committed to reducing plastic consumption in our transactions, that we have decided to reduce drastically this material in most of our packaging. In addition to this measure, we have eliminated plastic straps in our boxes, which is another step in strengthening our commitment to environmental responsibility.

The DNA of the Portuguese people is widely recognized in the textile world. Its success story dates back to the 16th century with the construction of the sails used by Portuguese ships. Since that time, the quality of construction and the design of Portuguese brands is appreciated all over the world, so these were the bases that contributed to the fact that, nowadays, Portuguese textiles mean flexibility, speed, consolidated knowledge and innovation. Based on these premises, TH Clothes continues to invest heavily in the quality of its products and in the expansion of its ranges, always with the vision of a future marked by differentiation and added value at the most diverse levels.

Perched on an impressive craggy hillside on the banks of the Enguri Su, Ankara, the capital of Turkey, is a modern and cosmopolitan European metropolis dotted with reminders of its diverse history and unparalleled strength and versatility. These are attributes that we tried to recreate in the creation of this t-shirt, so that it is a unique and timeless piece.

P O L O S H I R T S

Polo shirts have been constantly evolving since their invention in the 19th century. In addition to its common use linked to sports, polo shirts are gaining more and more fans in the promotional market. Being a product of excellence, our polo shirts are a unique and distinct product that go beyond refinement, managing to reconcile elements such as quality, durability, and detailed finishes.

The Adam and Eve polo shirts were named following the principle that they would be the first two pieces to mark the future growth of the TH Clothes brand. Their “offspring” is now over 50 articles.

ADAM

Men's polo t-shirt 195 g/m²

K I D S

TH Clothes considers children's articles to be very important pieces within its range. The responsibility of having products for the youngest is unquestionably a commitment for the brand.

The OEKO-TEX® certification given to our products is the guarantee that all components of these articles have been tested for the presence of harmful substances.

Running, jumping or playing ball
will be even more funny with
the t-shirts from the TH Clothes'
collection. Practical, comfortable
and functional, our articles offer the
perfect versatility to be combined
in various looks and resist the most
diverse adventures.
