

KI5207

Hand-woven canvas shopping bag

- Environmentally friendly: made from thread from recycled materials.
- Hand-stitched using traditional looms from Bangladesh.
- This item helps support the economy of families living in remote villages of Bangladesh, and the work of women in particular, thus helping to prevent these villages from being deserted.

80% cotton/20% polyester. Shopping bag made from thread from recycled materials. The bag is hand stitched using traditional looms from Bangladesh, called "tant" looms. The traditional weaving gives the canvas a distinctive and unique handcrafted look. This bag is part of the "Handloom recycled project" collection that arose from a collaboration between the Kimood brand and the HandTouch company, a member of ECOTA, a fair trade organisation in Bangladesh. This item helps support the economy of families living in remote villages of Bangladesh, and the work of women in particular, thus helping to prevent these villages from being deserted. The handles stitched along the body of the bag are made from the same canvas as the bag. There is a label inside the bag with details about the project and there is also a space for decoration to add logos and/or messages.
